

HEAD

THE NEW HEAD TENNIS SERIES

HEAD TENNIS 2012

THE POWER OF YOU

WHAT'S AN ATHLETE?

THE POWER OF YOU

I AM AN ATHLETE.
MY SPORT IS TENNIS.
IT IS MY FIRST LOVE.
AND IT WILL BE MY LAST.
I'VE SACRIFICED MY LIFE FOR THE COURT.
I'VE SERVED BEFORE DAWN.
CRAWLED HOME AFTER DUSK.
PLAYED WITH GUTS.
RELIED ON MY INSTINCTS ALONE.
I'VE BEATEN MYSELF.
BEATEN BETTER PLAYERS.
LOST TO LOSERS.
HAD THE COURAGE TO FACE MYSELF.
LET FEAR BE MY WITNESS.
I STRUGGLE WITH PAIN.
BUT NOT TO PLAY WOULD HAVE BEEN WORSE.
I'VE PLAYED TWO MILLION BACKHANDS AND MORE.
MY TECHNIQUE IS FLAWLESS.
BUT I AM NOT A MACHINE.
MY GAME IS SPONTANEOUS.
ADVENTUROUS.
COURAGEOUS.
I AM WHAT I AM.
I AM AN ATHLETE.
I AM HEAD.
AND I AM YOU.
I AM THE POWER OF YOU.

RACQUETS

WHAT'S YOUR GAME?

AMPLIFY YOURSELF

PREPARE TO INCREASE YOUR POSSIBILITIES.

TECHNOLOGIES GET INDIVIDUAL.

YouTek™ combines superior technologies to perfectly match your individual needs. Whether your game is aggressive and adventurous or consistent and smooth, YouTek™ enhances your performance and brings out the best in you.

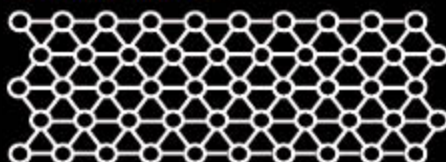

REWARD YOUR SPONTANEITY WITH D30™.

HEAD lay-up with smart material.

D30™ belongs to the "smart materials" category, which is a futuristic material with abnormal behavior characteristics. More specifically, D30™ belongs to a subcategory of "dilatant foams," which dramatically change their behavior under dynamic loading or impact. Integrated in the lay-up and positioned in the shaft area of the racquet, D30™ offers new possibilities for tennis players.

The D30™ technology is able to sense the needs of the players during different strokes (it's able to adapt to you). On high-speed impacts (aggressive shots), the smart molecules lock together within nanoseconds and dramatically increase the stiffness of the whole racquet frame to provide maximum power. On slowspeed impacts (slices or drop shots), the D30™ molecules absorb the impact to provide a softer touch for better feel. What does this mean to a tennis player? Passing shots are even harder and drop shots more precise, rewarding your spontaneity and supporting your courageous decisions.

ON HARD IMPACT

ON SOFT IMPACT

READY FOR NEW TECHNOLOGY

Innegra™ is today the world's lightest high performance fibre. Its extreme toughness together with HEAD's advanced carbon composite technology leads to a novel ultra tough hybrid composite.

The new HEAD Innegra™ hybrid-composite structure is integrated into the racquet for shock absorption and improved stability. As a result vibrations are reduced by up to 17% on ball impact for unique control and precision. This protects the player from the forces of a ball impact.

On top of this: HEAD's new hybrid-composite structure with the ultra tough Innegra™ fibre considerably extends the performance of your HEAD racquet, that means that racquets remain longer in the perfect condition without losing any of its great properties.

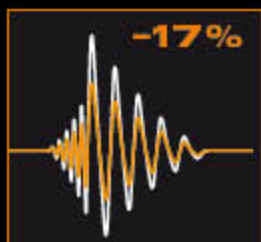

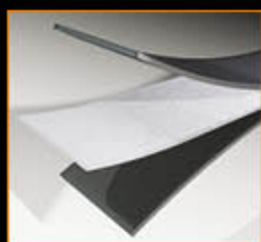

INNEGRA™ TECHNOLOGY

Feature:

- Extremely tough and light
- Lightest fibre in the world today
- In combination with carbon fibre, Innegra™ forms an ultra tough hybrid-composite structure

Benefit:

- Improved stability and increased shock absorption
- vibration on ball impact is reduced by up to 17% for unique control and precision
- HEAD's new hybrid-composite structure considerably tends the performance of your HEAD racquet

PRESTIGE- ABSOLUTE PRECISION

SINCE 1987

In 2012, we celebrate the 25th birthday of a true legend! The Prestige inspired the design of a collection which will equip tennis players from head-to-toe with prestigious designs.

RADICAL CREATIVITY

Always unpredictable, multi-talented, with a game as versatile as it is unexpected - this is Radical Creativity on the court. In 2012, HEAD equips creative players with a head-to-toe collection as unexpected as their style of play!

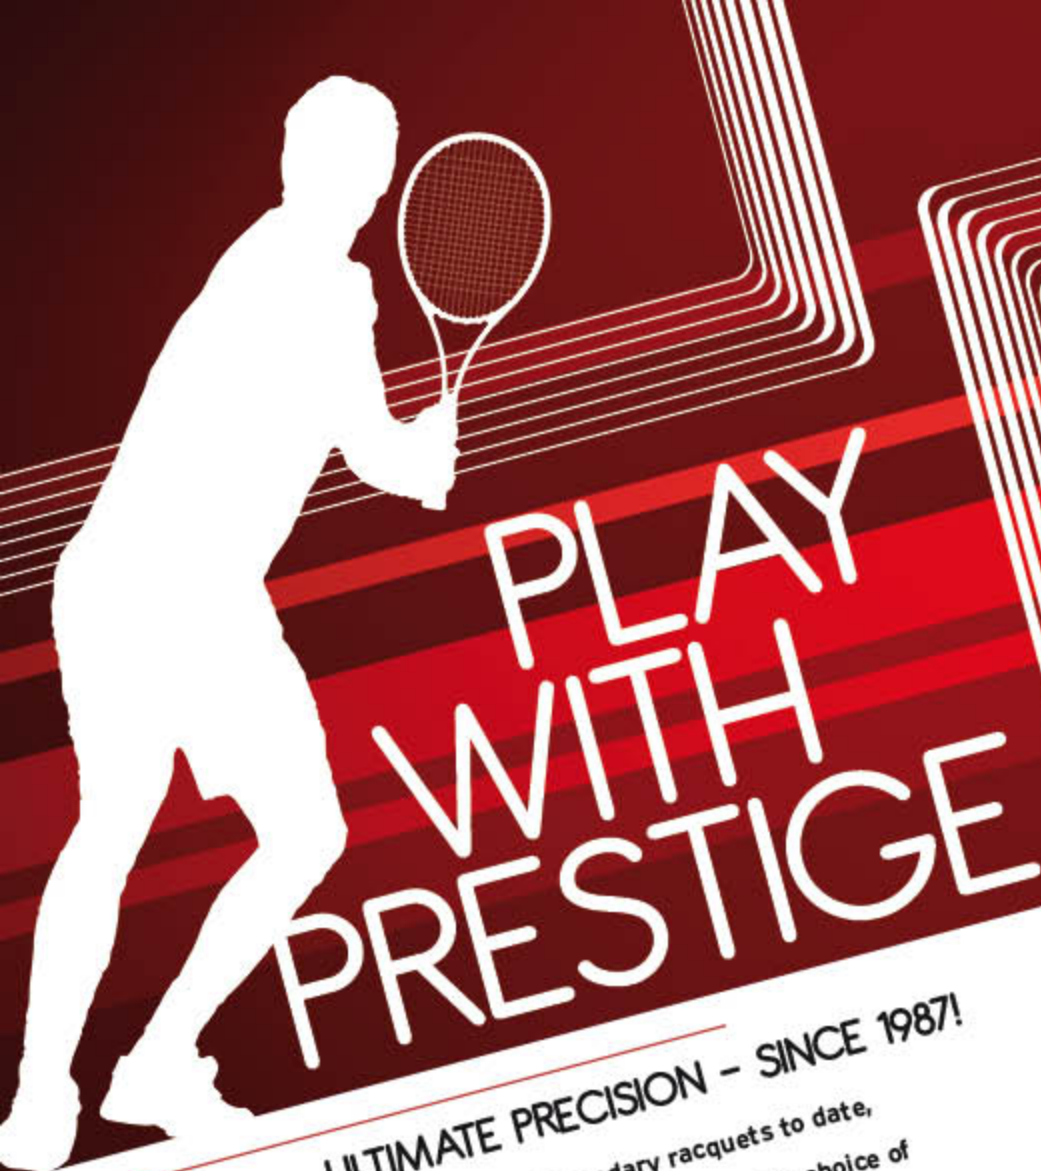

Robin Soderling

THE
POWER OF
PRECISION.
THE POWER OF
PRESTIGE.

The new HEAD **YOUTEK** IG Prestige Series

PLAY WITH PRESTIGE

ULTIMATE PRECISION – SINCE 1987!

One of the most legendary racquets to date, HEAD Prestige remains the ultimate choice of competitive players everywhere. These racquets rock every game with incredible touch and absolute precision. All frames are equipped with a longer grip which provides more comfort especially for double handed players.

YouTek™ IG
Prestige Pro

With its open-string pattern the Pro represents the most aggressive version within the Prestige silo.

Novak Djokovic

The HEAD **YOUTEK** IG Speed Series

PLAY WITH SPEED

THE PROFESSIONAL RACQUET FOR ULTIMATE SPEED.

The YouTek Speed is specifically designed for players like Novak Djokovic. It offers a stiffer feel for heavy hitters who are looking for outstanding touch and ultimate speed.

YouTek™ IG
Speed Pro

The Speed Pro offers a heavier frame combined with a very thin beam, providing excellent touch. It comes with a synthetic leather grip and a full cap for ultimate tour performance.

YouTek™ IG
Speed MP 315 (18/20)

The Speed MP 18/20 is Novak Djokovic's racquet of choice. The 18/20 string pattern provides all the control and feel which aggressive players like Novak are looking for.

YouTek™ IG
Speed MP 315 (16/19)

Added length in combination with an open string pattern make this frame the first choice for players who are looking for more spin and some added pop.

YouTek™ IG
Speed MP 300

The Speed MP 300 is the most versatile offer within the silo. Its special setup makes your shots faster with less effort.

YouTek™ IG
Speed Elite

This lighter version of the Speed provides tour performance with greater maneuverability. The slightly wider frame makes this frame even more powerful.

YouTek™ IG
Speed Lite

Being the lightest version in the Speed series, this racquet scores with great playing characteristics and very easy maneuverability. This combination makes it a great option for beginners or intermediate players.

Steffi Graf

Andre Agassi

Andre Agassi and Steffi Graf have been an integral part of the HEAD Development Team.

"It has been great to work with HEAD in the development of the new Star Series racquets. I know you are going to like all of the added features of the racquets. They will definitely maximize your performance on the court!"

- Steffi Graf

THE
POWER OF
STARS.
THE
UNLEASH YOUR
POWER.

The HEAD **YONTEX** Power Series

AMPLIFY YOURSELF

PERFORMANCE AMPLIFIED

YOU TEK™

TECHNOLOGIES GET INDIVIDUAL.

YouTek™ combines superior technologies to perfectly match your individual needs. Whether your game is aggressive and adventurous or consistent and smooth, YouTek™ enhances your performance and brings out the best in you.

QUADFACE

QuadFace extends the stringbed at key points of the frame providing longer strings and an enlarged sweetspot resulting in maximum power. Inner QuadFace is an indentation on the inside of the frame that allows the stringbed to flex more before reaching the grommets, providing a more forgiving sweetspot. Outer QuadFace extends the outside of the frame to allow the strings to be longer, which provides more consistent power throughout the sweetspot.

MultiZone Grip™

Thanks to its unique, smooth, sweat-absorbing non-slip surface, the MultiZone Grip™ offers greater comfort and control during play.

Features

- Replaces the traditional single material grip with zones of functionally different surfaces
- Unique sweat channels
- Aggressive design

Benefits

- One piece design provides a smooth surface for added feel and excellent control
- Embossed sweat channels provide excellent absorption & superior tackiness
- New design for a very unique modern look

CONTROL RING

The Control Ring reduces string deformation providing added control and accuracy on every shot. It is available in 2 piece and 4 piece variations depending on the racquet model. The 2 piece Control Ring is located at the 10 & 2 o'clock positions on the inside of the frame for EXCELLENT control, while the 4 piece Control Ring adds the 8 & 4 o'clock positions for MAXIMUM control.

PLAY WITH POWER

THE MOST ADVANCED GAME IMPROVEMENT RACQUET.

HEAD introduces the all new YOUTEK™ Star Series. A range of unique racquets with revolutionary new technologies for players with shorter, more compact swing styles. The QuadFace stringbed, Control Ring and MultiZone Grip™ will take your individual game to the next level. Choose your personal YOUTEK™ Star racquet today and amplify your game.

PERFORMANCE & PRESTRUNG

MY GAME IS
SPONTANEOUS.

What's your Game?

BOOST YOUR POWER

DEMONSTRATE YOUR INVINCIBILITY

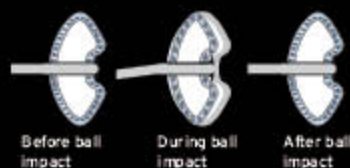

MICROGEL™ TECHNOLOGY

ROCK-Solid performance. MicroGel™ is a revolutionary silicone-based material that HEAD has combined with stiff and strong carbon composite fibers to create tour racquets with incredible responsive qualities. On ball impact, HEAD MicroGel™ uniformly distributes the impact load around the frame to provide unique touch and exceptional rock-solid feel.

What happens during ball impact?

The MicroGel™ material deforms and compresses, absorbing and dispersing the impact to the entire frame, then returns quickly to its original shape.

PCT SELECT

A selection of premium fibres ensuring higher torsional stiffness. Combined with a special titanium-glass compound, this leads to more stroke depth and outstanding dampening characteristics.

ERGONOMIC GRIP

Ergonomically placed comfort foam pads in the grip reduce harmful vibrations by up to 18% for enhanced comfort and protection.

ISD TECHNOLOGY

The integrated string dampener (ISD) absorbs string vibrations immediately after ball impact.

ARCORE

ARCORE Technology is a specially designed cross section in the shaft of the racquet to increase torsional stability for ultimate control and power.

metallix™

Made of a specially designed matrix of carbon fibers and a new crystalline metal alloy. The result is a lighter, stronger and more powerful racquet than ever before.

nanOTITANIUM

Racquet structure at molecular level Integrated Nano Material which strengthens the original titanium weaves

Benefit:

- Stronger
- more stable
- more power

The aerodynamic racquet shape lowers the air resistance, allowing higher racquet speed and the ability to hit the ball harder than ever before.

The rubber inlays between the bridge and the frame dampen the vibrations generated during ball impact and help to prevent arm injuries.

MICROGEL™ CHALLENGE

MicroGel™
Challenge MP

This tour frame has been designed for a wide range of players. With its perfect combination of power and feel it brings your game to the next level.

MicroGel™
Challenge OS

Additional forgiveness and easy handling make this racquet the perfect choice for players who are looking for more comfort and play with a sportive frame yet.

MicroGel™
Challenge Lite

The Lite version weighs in at 260 grams allowing easier handling and better manoeuvrability. It's the excellent choice for women and ambitious beginners.

POWER BALANCE

NEW

The Power Balance Series has been designed by HEAD to support players who are looking for extra comfort in their game. While playing at a maximum, three key technologies protect your game from injuries.

MORE POWER IN EVERY SHOT.

Power Balance 1

The Power Balance 1 is a sportive frame that allows you to play powerful strokes with lots of comfort.

Power Balance 2

This oversize frame provides great control and precise handling.

Power Balance 6

The Power Balance 6 offers lightweight and a high power level with easy handling.

ATP PARTNERSHIP

Supporting and promoting players and the game. The long-standing global partnership between HEAD and the ATP continues. HEAD provides the official racquet, official ball and official bag of the ATP Tour.

ATP SERIES

TOP TECHNOLOGY
AND GREAT VALUE.
HEAD ATP racquets offer excellent features, top technologies and superior value to players at all levels. Every racquet comes with a neutral ATP Pro bag. Both ATP models are also available with a regular HEAD coverbag.

JUNIOR SERIES

HIGH PERFORMANCE
FOR YOUNG PLAYERS.

JUNIOR

TOUR SERIES

**YouTek™ IG
Speed Revolt**

The Speed Revolt is the perfect transition racquet for juniors who want to get to the top faster. It comes with standard length and only weighs 245 grams.

**YouTek™ IG
Speed Jr.**

Based on the Speed Lite, the Speed Jr. combines power and control and appeals to any youngster who wants to play like Novak Djokovic.

**YouTek™ IG
Radical Jr.**

The Radical Jr. is now equipped with the Innegra technology. Along with D30 juniors get the same playing characteristics like on the Tour model.

**YouTek™ IG
Instinct Jr.**

This new junior racquet comes with original D30 and Innegra technology. Bring your game to the next level with the junior version of Maria Sharapova and Tomas Berdych's weapon.

BALLS

MY
FAVOURITE
BALL.

Prepare for great durability.

BALLS

TOURNAMENT

The iconic HEAD ATP Ball.

Official Ball of the ATP, many ATP World Tour tournaments and the Barclays ATP World Tour Finals in London.
FIND OUT MORE AT HEAD.COM/TENNIS

The letters ATP and the tennisplayer design are registered trademarks of ATP Tour, Inc.

HEAD ATP

The iconic HEAD ATP Ball - preferred not only by Andy Murray for its liveliness and ability to reach maximum spin and control - now comes with additional and unrivalled durability. The Flagship of HEAD's tournament balls with new Encore™ technology and SmartOptik™ felt for greater visibility. Official Ball of the ATP, many ATP World Tour Tournaments and the Barclays ATP World Tour Finals in London.

3-ball can:
Art. no. 570303, 6 dz, 24 cans/carton

4-ball can:
Art. no. 570314, 6 dz, 18 cans/carton
Art. no. 570304, 12 dz, 36 cans/carton

HEAD PRO

The new HEAD Pro with overall improved playing characteristics, SmartOptik™ felt for better visibility and a special rubber mixture for excellent durability.

3-ball can:
Art. no. 571023, 6 dz, 24 cans/carton

4-ball can:
Art. no. 571034, 6 dz, 18 cans/carton

HEAD SILVER

The new HEAD Silver provides the original Head 360 degree sweet spot, increased visibility by SmartOptik™ felt and a cutting edge technology. There has never been a more forgiving HEAD tennis ball. In particular when hit outside of the sweet-spot this revolutionary ball responds with control and shows excellent durability.

3-ball can:
Art. no. 571303, 6 dz, 24 cans/carton

4-ball can:
Art. no. 571304, 6 dz, 18 cans/carton

PRACTICE

HEAD CONTROL PLUS BUCKET

Good for infrequent tennis players. Pressureless tennis ball, suitable for all court surfaces.

84-ball bucket:
Art. no. 578150, 84 balls/bucket (7dz)

HEAD TIP BUCKETS

The Bucket deal makes training easier!

- one bucket for every trainer lesson
- 1 Bucket TIP orange
- 1 Bucket TIP green

60-ball buckets:
Art. No. 578250 - 60-ball TIP orange
Art. No. 578260 - 60-ball TIP green

A GREAT BALL BEGINS WITH GREAT TECHNOLOGIES.

33% longer lasting* with Encore™ technology
Encore™ technology is based on a blend of natural and man-made polymers in a core that limits ball softening. This allows the ball to stay fresh and play "like new" much longer. Players will feel like they are playing with new tennis balls, even if they have been open for weeks.

* Encore™ technology: comparison of ball softening between the new HEAD ATP and original Pro Penn
** Smart Optik™ felt: based on Vectorscope Digital Test Data - Feb. 2001

19% greater visibility** with SmartOptik™ felt
It doesn't get much brighter than this: with SmartOptik™ felt, HEAD balls are 19% brighter than standard tennis balls. This higher visibility means players can see the ball earlier, have a better reaction time, and hit more precisely.

CHAMPIONSHIP

HEAD CHAMPIONSHIP

Top all-around performance and durability. Pressurized championship ball suitable for all court surfaces. Premium high-density felt.

3-ball can:
Art. no. 575003, 6 dz,

PLAY & STAY

HEAD TIP. RED

T.I.P. red for a lot of fun on the court
- 75 % slower*
- For starter children aged 5 to 8
- Court size: 11m x 5 - 6m
- Significantly bigger and softer for more control
- Bicolored - easily to see and hit

3-ball polybag:
Art. no. 578213,
4 dz, 16 polybags/carton

HEAD TIP. ORANGE

T.I.P. orange to perfect your racquet skills on a bigger court
- 50 % slower*
- For children aged 8 to 9
- Court size: 18m x 5,6 - 8,23m
- Right ball for preparing the transition to full court tennis
- Bicolored for clearer visibility

3-ball polybag:
Art. no. 578223,
6 dz, 24 polybags/carton

HEAD TIP. GREEN

T.I.P. green allows players to hit a faultless shot
- 25 % slower*
- For starter adults and children aged 9 to 10
- Full size court
- Easy to control yet still fast
- The perfect ball for a player's first run on a full court

3-ball polybag:
Art. no. 578233,
6 dz, 24 polybags/carton

*than a standard tennis ball

FOOTWEAR
ACCELERATE
YOUR SPEED.
On any surface.

FOOTWEAR TECHNOLOGIES

ACTIVE ENERGY FOR YOUR FEET.

HEAD TRINERGY™

A SYNERGY OF HEAD'S MOST PROVEN TECHNOLOGIES FOR OPTIMIZING YOUR PERFORMANCE

HEAD CXG™ Comfort Grid

The core of HEAD CXG™ is an interlocking coil structure of turned polyethylene, polypropylene and nylon, and saran fibres encapsulated in a resilient polyurethane foam. The encapsulated coil fiber are compressed on impact, absorbing shock. As the foot reaches the end of its stride, the coil fibres rebound, producing a resilient, spring-like upward force.

HEAD Energy Bridge™

Strategically placed between the heel and forefoot area, the HEAD Energy Bridge™ provides torsion stability and increased transfer of power from the heel to the forefoot.

HEAD Vi-Pod™ TECHNOLOGY

Integrated in the midsole heel area, the HEAD Vi-Pod™ technology absorbs the energy of impact and distributes it to the entire foot, eliminating vibration and maximizing forward motion.

HEAD Cooling System™

An innovative, dynamic "climate control" system within the shoe that maintains ultimate breathability by absorbing and releasing excess heat build-up.

HEAD HyBrasion™

A high-abrasion compound rubber formula specifically designed for the high-stress areas of tennis shoe soles. Provides superior toe drag resistance and hard-wearing performance on any playing surface.

HEAD Lateral Control™

Integrated in the outer forefoot area, HEAD Lateral Control™ is a squared edge of harder rubber that provides optimum lateral stability and enables quick changes in direction. Additionally, the medial forefoot area is rounded specifically to enable extreme slides.

HEAD Radial Contact™ Outsole Technology

The low-profile design and HEAD Radial Contact™ technology ensure a constant point of traction, providing maximum flexibility and manoeuvrability with optimal stability.

Comfort Fit Insole

A special soft-last construction with a Texon and EVA insole provides greater flexibility and lighter weight for maximum comfort and stability.

- material: 100% Polyester
- racquet compartment for 1-3 racquets

ACCESSORIES

MIND
THE
DETAILS.

Prepare to fine-tune your game.

HYBRID PROGRAM

DON'T TAKE WHAT YOU GET -
TAKE WHAT YOU WANT.

The most important contributor to a great performing racquet is the string you put in it! Applying HEAD's hybrid string approach allows you to combine the best benefits of each string - main and cross - to achieve optimum performance for your game. Through months of extensive testing, HEAD has developed a matrix that allows you to choose the best stringing combination tailored to the specific benefits you are looking for.

YOU SELECT TWO BENEFITS:

1

MAIN STRINGS

YOUR **PRIMARY BENEFIT**:
power, control, durability or spin

2

CROSS STRINGS

YOUR **ADDITIONAL BENEFIT**:
power, control, durability or touch

The HEAD MATRIX then shows the recommended string combination to achieve the specific benefits you have selected to optimize your performance.

1 CHOOSE YOUR PRIMARY BENEFIT

POWER	CONTROL	DURABILITY	SPIN
	SYNTHETIC GUT PPS C ² ROCKET	SONIC PRO SYNTHETIC GUT PPS	SYNTHETIC GUT PPS C ² ROCKET
SYNTHETIC GUT PPS C ² ROCKET		SONIC PRO NATURAL GUT	C ² ROCKET SYNTHETIC GUT PPS
SYNTHETIC GUT PPS SONIC PRO	SONIC PRO SYNTHETIC GUT PPS		SONIC PRO SYNTHETIC GUT PPS
C ² ROCKET SYNTHETIC GUT PPS	SONIC PRO NATURAL GUT	SONIC PRO NATURAL GUT	SONIC PRO NATURAL GUT

2 CHOOSE YOUR ADDITIONAL BENEFIT

- POWER
- CONTROL
- DURABILITY
- TOUCH

HYBRID STRINGS

LEADING TECHNOLOGIES, SUPERIOR PLAYING FEATURES.

Based on innovative technologies and made with the best-quality materials, HEAD strings are unmatched when it comes to performance, consistency and durability.

HYBRID STRINGS

Excellent HEAD strings available in half sets for individual performance

Natural Gut

Set: Art. no. 281049

HEAD's new natural gut string takes your game to a higher level. This string features an optimum blend of power, comfort, feel and control for outstanding playability.

Length: Half set 6.1 m
Gauge: 1.30 mm

Color

Sonic Pro™

Set: Art. no. 281129

Made of unique copolymer polyester and with soft molecular construction, this string provides maximum control, more touch and excellent durability.

Length: Half set 6.2 m
Gauge: 1.25 mm

Color ☐

C3 Rocket™ C³TECH

Set: Art. no. 281059

An excellent mainstream string featuring the C3 technology. This string combines maximum elasticity with great touch and outstanding control.

Length: Half set 6.2 m
Gauge: 1.24 mm

Color ☐

Synthetic Gut PPS

Set: Art. no. 281139

PowerStrip technology and a special pearl polyamide coating provide resilience and extra speed on all strokes.

Length: Half set 6.2 m
Gauge: 1.24 mm

Color ☐

STRINGS

UNBEATABLE PERFORMANCE
ON EVERY SHOT.

HEAD's full range of high-quality strings provides the right string to optimize every player's performance. Based on innovative technologies and made with the best-quality materials, HEAD strings are unmatched when it comes to power, control and durability.

POWER STRINGS

Superior elasticity for incredible power

FXP Power™

Set: Art. no. 281007
Reel: Art. no. 281107

This great new power string provides ultimate elasticity for unprecedented power. Tri-Cluster FiberGEL™ in the wrap gives more comfort and excellent touch.

Length: 12 m/200 m
Gauge: 1.24 mm, 1.30 mm
Color:

Synthetic Gut PPS

Set: Art. no. 281065
Reel: Art. no. 281095

Power Strip technology and a special pearl polyamide coating provide resilience and extra speed on all strokes.

Length: 12 m/200 m
Colors: Set 124, 134
 Set 114, reel 124, 134
 Reel 114

PWR Fusion

NEW

Set: Art. no. 281102
Reel: Art. no. 281112

The core is made of 4 monofilament parts for reduced vibrations and increased dampening. This unique construction is surrounded by multifilament layers which lead to a soft feeling and minimal tension loss for superior power and comfort.

Length: 12 m/200 m
Gauge: 1.30 mm
Color:

ETS

Set: Art. no. 281029
Reel: Art. no. 281359

ETS technology provides exceptional elasticity and energy transfer for maximum power and perfect sound. Abrasion-resistant for enhanced durability.

Length: 12 m/200 m
Gauge: 1.24 mm, 1.31 mm
Color:

IntelliString™

Set: Art. no. 281021
Reel: Art. no. 281031

RIP Power in the main string and RIP Feel in the cross string create a perfect blend of power, feel and durability.

Length: Cross 6.5 m/108 m
Main 5.5 m/92 m
Gauge: Cross 1.23 mm
Main 1.28 mm
Colors:

FiberGEL™ Power

Set: Art. no. 281044
Reel: Art. no. 281054

FiberGEL™ technology using two twin gel fibers in a multifilament wrap offers superior feel, comfort and power, while remaining very easy on the arm.

Length: 12 m/200 m
Gauge: 1.24 mm, 1.30 mm
Colors:

CONTROL STRINGS

Precise placement and maximum feel for a perfect game

Sonic Pro™

Set: Art. no. 281028
Reel: Art. no. 281128

Made of unique copolymer polyester and with soft molecular construction, this string provides maximum control, more touch and excellent durability.

Length: 12 m/200 m
Gauge: 1.25 mm, 1.30 mm
Colors

C3 Rocket™ C³ TECH

Set: Art. no. 281018
Reel: Art. no. 281118

An excellent mainstream string featuring the C³ technology. This string combines maximum elasticity with great touch and outstanding control.

Length: 12 m/200 m
Gauge: 1.24 mm, 1.31 mm
Color

FXP™

Set: Art. no. 281006
Reel: Art. no. 281106

Special Tri-Cluster FiberGEL™ filaments integrated in a Polyamide 6 core provide maximum ball pocket with superior control and touch.

Length: 12 m/200 m
Gauge: 1.24 mm, 1.32 mm
Color

IntelliTour™

Set: Art. no. 281002
Reel: Art. no. 281012

The ultimate hybrid RIP Tech™ string uses a soft elastic core to provide unmatched comfort and control.

Length: Cross 6.5 m/108 m
Main 5.5 m/92 m
Gauge: 1.23 mm, 1.30 mm
Color

RIP Control

Set: Art. no. 281099
Reel: Art. no. 281109

A unique ribbon construction and a spin-textured surface incorporate great topspin with maximum playability and comfort.

Length: 12 m/200 m
Gauge: 1.20 mm, 1.30 mm
Colors

Synthetic Gut

Set: Art. no. 281010
Reel: Art. no. 281020

HEAD's most popular synthetic string. The copolymer center core is surrounded by a multifilament single wrap for a perfect blend of playability and durability.

Length: 12 m/200 m
Gauge: 1.20 mm, 1.30 mm
Colors Sets/reels 1.20
Sets/reels 1.30

Master

Set: Art. no. 281023
Reel: Art. no. 281033

A synthetic gut string with plenty of feel and power, thanks to the high-tensile strength copolymer center surrounded by a multifilament single wrap.

Length: 12 m/200 m/220 m/400 m
Gauge: 1.28 mm, 1.38 mm
Colors

Reel (220 m): Art. no. 281329
Reel (400 m): Art. no. 281319

Competition II

Set: Art. no. 281145
Reel: Art. no. 281155

A monofilament polyester string that is a perfect blend of durability and power.

Length: 12 m/400 m
Gauge: 1.30 mm
Colors

UltraTour

Set: Art. no. 281104
Reel: Art. no. 281114

This string has a uniquely refined copolymer polyester mix for a softer, more elastic feel. Extremely durable, even in thin gauges.

Length: 12 m/200 m
Gauge: 1.20 mm, 1.27 mm
Colors

DURABILITY STRINGS

Excellent all-around performance with optimal durability

GRIPS

ULTIMATE TOUCH AND RACQUET CONTROL

REPLACEMENT
GRIPS

Leather Tour

Art. no. 282010

This high-end grip features 100% authentic leather for perfect feel and ultimate touch. The number-one choice of the pros.

Length: 118 cm
Thickness: 1,5 mm
Width: 2,5 cm
Color:

Synthetic Leather Grip

Art. no. 285601

A special PU composition provides 100% leather feel for ultimate touch. Enhanced layering offers outstanding comfort.

Length: 110 cm
Thickness: 1,75 mm
Width: 2,7 cm
Color:

HydroSorb™ Tour

Art. no. 282000

The twin-channel system provides ultimate comfort and air flow, while the high-tack elastomer surface ensures a firm grip. Extra large perforations for enhanced sweat absorption.

Length: 110 cm
Thickness: 1,8 mm
Width: 2,7 cm
Colors:

HydroSorb™

Art. no. 285014

This twin-channel system provides ultimate comfort and air flow, while the high-tack elastomer surface ensures a firm grip.

Length: 110 cm
Thickness: 1,8 mm
Width: 2,7 cm
Colors:
Assorted Colors:

Dual Absorbing™

Art. no. 285034

A soft rubber composite with a smooth tacky surface provides good absorption and keeps the racquet from slipping.

Length: 110 cm
Thickness: 1,75 mm
Width: 2,7 cm
Colors:
Assorted: 4x 2x 2x
Colors: 2x 2x

ComforTac™

Art. no. 285001

An innovative triple-layer design and unique traction surface provide great tack and a cushioned feel. Extra large perforations bring improved air flow for moisture reduction.

Length: 110 cm
Thickness: 1,8 mm
Width: 2,7 cm
Colors:

HydroControl™

Art. no. 285004

The twin-channel system gives maximum comfort and superior ventilation. The high-tack elastomer surface with traction lines gives added control.

Length: 110 cm
Thickness: 1,8 mm
Width: 2,7 cm
Color:

SoftTAC Traction™

Art. no. 285029, Assorted 285000

The soft elastomer compound and unique perforated traction surface allow ultimate tack and cushioning with less torque.

Length: 110 cm
Thickness: 1,8 mm
Width: 2,7 cm
Color:
Assorted Colors: 6x 2x 2x 2x

MultiZone Grip™

Art. no. 282011

Replaces the traditional single material grip with zones of functionally different surfaces, unique sweat channels and aggressive design.

Length: 19,8 cm
Thickness: 1,8 mm
Color:

ComforTac Traction™

Art. no. 285002

An additional traction pattern on the innovative triple-layer design provides maximum traction. Also features improved air flow for moisture reduction and a soft cushioned base for better feel and control.

Length: 110 cm
Thickness: 1,75 mm
Width: 2,7 cm
Color:

OVERWRAPS

Prestige™ Pro

Art. no. 282009

A specially reinforced polyurethane elastomer material with no perforations provides unique touch and playability with ultimate durability.

Length: 105 cm

ENJOY THE
PRACTICE.

T.I.P. (TENNIS INSTRUCTION PROGRAM)

The aim of the T.I.P. is to have beginners serve, rally and score from the very first lesson, ensuring that their first experience with tennis is positive and fun. The T.I.P. system supports this concept, with each level of racquet and ball designed to match students' growing playing abilities.
